and SOPIPA

MMARS is fast ...

Our speedy servers crunch your data and deliver the result rapidly to your internet device.

MMARS is intuitive ...

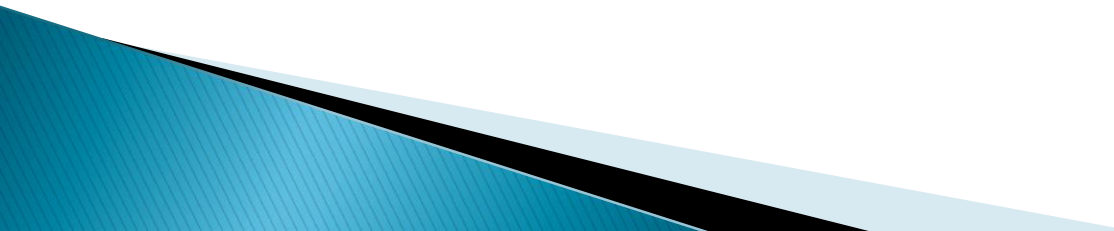

Your data are at your fingertips in one simple interface. Guided selections to choose who, what, when, and where.

or

Simply fetch our pre-built reports.

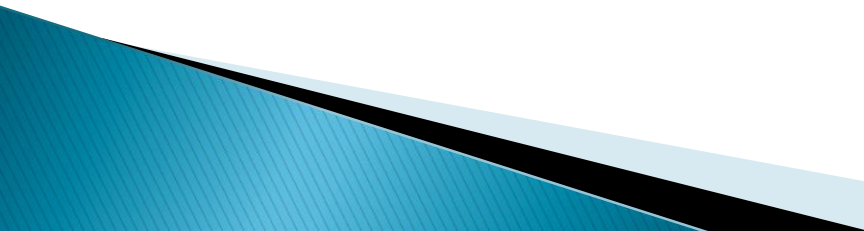

The MMARS “process”

- ▶ You download score results for each new year or term, then upload to us via our secure ShareFile portal.
 - ▶ We are automatically notified.
 - ▶ We append your new data to your MMARS database, typically within 24 hours.
 - ▶ We pre-build your report library.
 - ▶ We notify you of the data availability.
 - ▶ You go online, retrieve pre-built reports and/or create your own!
 - ▶ We offer guidance and training.
- 

MMARS extras

- ▶ Using rosters supplied by you (exported from your SIS), MMARS will create pupil and summary reports by classroom, even period-by-period at your secondary schools.
- ▶ Using CALPADS, your SIS, or another source of demographic/subgroup data supplied by you, MMARS will create a variety of subgroup reports and side-by-side comparisons. We'll even report “special” subgroups, known only to your district.

MMARS Dynamic Reporting

- ▶ Create FAST ad-hoc summary and pupil reports for various schools / grades / teachers / subgroups.
 - ▶ Use MMARS Jux™ to create side-by-side comparisons.
 - ▶ Charts update instantly when you change parameters (e.g. select a different report, or school, or teacher, or grade, or subject, etc.).
 - ▶ Our Sample Reports booklet guides you through the multitude of available options.
 - ▶ Live Chat help available with just 1 click.
- 

MMARS Batch Reporting

- ▶ Automatically iterate through creation of reports for multiple schools, teachers, grades, subgroups.
- ▶ For example, with just a few keystrokes, you can create a pupil list for each teacher in each school in your district, and ...
 - Have those reports delivered electronically as PDF or Excel files.
- ▶ Literally, queue hundreds of reports in minutes.
- ▶ Live Chat help available with just 1 click.

MMARS Report Queue

- ▶ Role-based access to PDF and Excel reports created through Batch Reporting.
 - District evaluators have access to all reports.
 - Site administrators can see reports only for their school.
 - Teachers can see reports only for their students.
- ▶ Clearly organized by Test, Report Name/Style, Content, and by Group (e.g. school/grade/teacher).
- ▶ Ultimately filterable, so you see only what you want.
- ▶ Click to View/Print/Download.
- ▶ Click to Share/Email/Notify.
- ▶ Report storage for up to 6 months (or more).
